PRODUCT INFORMATION

The Mossburn Vintage Casks range are a collection of Single Malt Scotch Whiskies each issuing from a strictly limited and select batch of casks. Each numbered release will only ever yield a finite number of bottles. While this means that we can never replicate the particular character of this Single Malt, it also offers an opportunity to sample what we believe to be an exceptional example of the whisky made by one of Scotland's most distinguished distilleries.

Tasting notes

A modern distillery close to the River Spey. Here the eight 'lampglass' shaped stills produce a characterful spirit which lightens with age. We have aged this whisky for ten years in refill hogsheads which allows some of the distillery's essence to shine through. There are weighty woody notes nose that deepen to make way for some oak and cracked black pepper. The palate has developed to include some nuttiness with more touches of black pepper, dried apricots and golden syrup.
