### PRODUCT INFORMATION

This small batch was carefully blended from rums produced by several different distilleries. Our master blender has carefully selected the age and ester content of the chosen spirits so that the typical pungency and tropical flavours of Jamaican rum are shown at their very best.

Each single batch of Mezan XO is re-aged following blending, to encourage the marriage of flavours and enhance the structure and subtlety of the rum.

### TASTING NOTES

Aged at its very best, this rum has a pungent nose with fresh banana and sweet spice and a surprisingly light palate that shows complex spice with hints of tobacco.
